Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

I am	Describe customer with 3-4 key characteristics - <i>who are they?</i>	Describe the customer and their attributes here
I'm trying to	List their outcome or "job" the care about - <i>what are they trying to achieve?</i>	List the thing they are trying to achieve here
but	Describe what problems or barriers stand in the way – <i>what bothers them most?</i>	Describe the problems or barriers that get in the way here
because	Enter the "root cause" of why the problem or barrier exists – <i>what needs to be solved?</i>	Describe the reason the problems or barriers exist
which makes me feel	Describe the emotions from the customer's point of view – <i>how does it impact them emotionally?</i>	Describe the emotions the result from experiencing the problems or barriers

Example:

I am	I'm trying to	But	Because	Which makes me feel
A user/requester who needs network access or connectivity	Submit a network request quickly and provide all required information	The request process involves multiple fields and manual steps	Different network requests require different information and approvals	Confused and frustrated about submitting the request correctly

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A user/requester who needs network access or connectivity	Submit a network request quickly and provide all required information	Submit a network request quickly and provide all required information	Network requests can have different requirements depending on the request type, device, and network details	Confused and frustrated about submitting the request correctly
PS-2	A manager or Network Team member responsible for reviewing and fulfilling network requests	Review, approve, and fulfill network requests efficiently	Tracking approvals and creating fulfillment tasks can require manual coordination	Request information, approval status, and fulfillment activities may be handled across different steps	Delayed and concerned about missing or incorrectly processing requests
